

How to Join the “Start with Gun” Modded Rust Server

A quick step-by-step guide using the Rust server browser

Step 1 — Open Rust and go to the Modded tab

Launch **Rust** and open the **Play** server browser. At the top of the server list, select the **MODDED** tab.

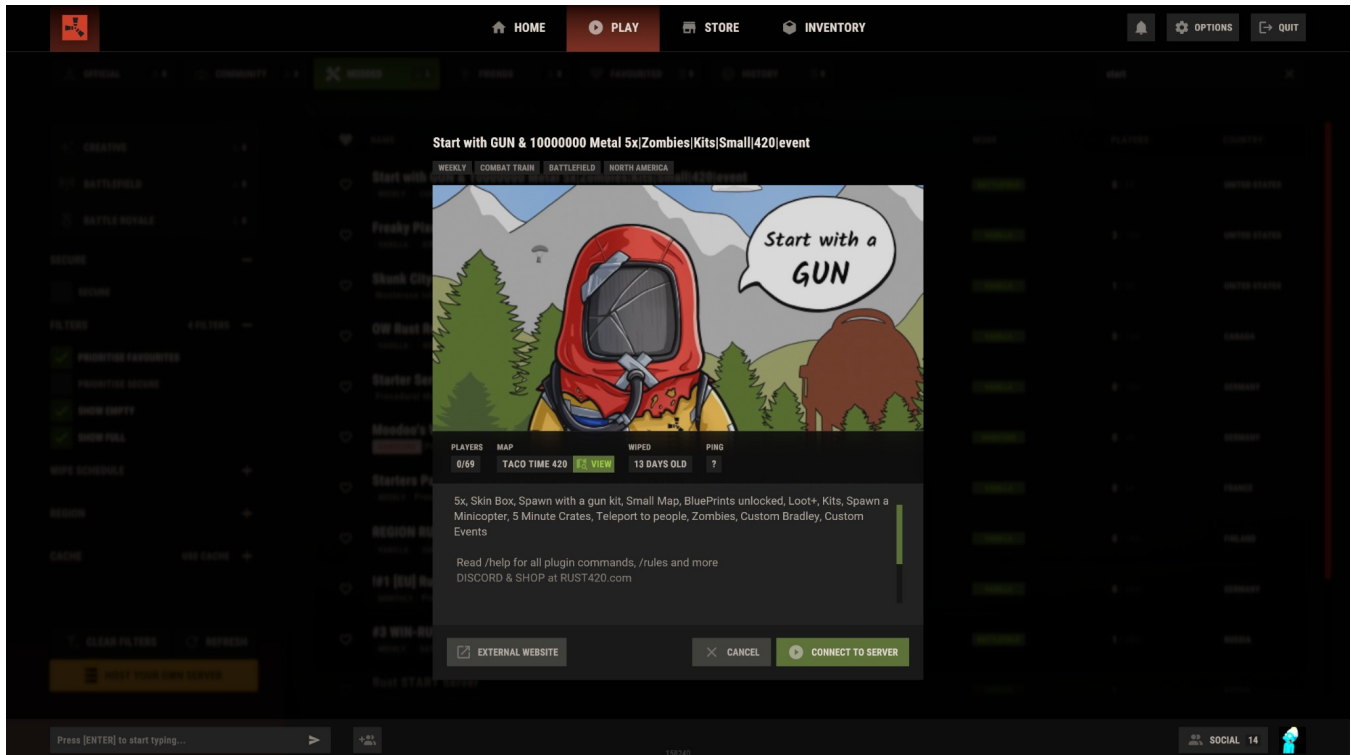

Server browser with the MODDED tab selected.

Step 2 — Show empty servers and search for START

On the left side under **FILTERS**, click **SHOW EMPTY** so empty servers are displayed. Then click the search box in the upper-right corner, type **START**, and press **Enter**.

Step 3 — Select the Start with Gun server

Find the server named **Start with GUN & 10000000 Metal 5x|Zombies|Kits|Small|420|event**. Click the server entry to open its details.

Server details screen — confirm the server name, then choose **CONNECT TO SERVER**.

Step 4 — Connect to the server

With the **Start with GUN** server selected, click the green **CONNECT TO SERVER** button in the bottom-right corner. Rust will begin connecting you to the server.

Quick Version

Rust → Play → Modded → Show Empty → Search “START” → Select “Start with GUN” → Connect to Server
